

Digest Journal of Nanomaterials and Biostructures

Open Access

- Open-Access Model
- Electronic ISSN: 1842-3582
- Established: 2006
- IF: 1.2 (2025)
- JCR: Q4 (MATERIALS SCIENCE, MULTIDISCIPLINARY; NANOSCIENCE & NANOTECHNOLOGY)
- Publication Frequency: 4 issues per year
- Review Time: 4–6 weeks
- Indexing: SCIE, Scopus, DOAJ

Editor-in-Chief

Carmen-Georgeta Ristoscu

Senior Scientific Researcher
(1st degree) at the National Institute for
Laser, Plasma and Radiation Physics
(INFILPR), Romania

Aim & Scope:

Digest Journal of Nanomaterials and Biostructures (DJNB) is an international, peer-reviewed, open-access journal publishing fundamental and applied research on nanomaterials and materials derived from biostructures. It covers their design, composition, structure, preparation, characterization, properties, functional regulation, and applications in physics, chemistry, biology, medicine, healthcare, and energy. The article types accepted by *DJNB* include Original Research articles, Reviews, Systematic Reviews, Editorials, and Commentaries. The journal provides a platform for knowledge exchange among researchers and engineering and technical professionals in materials science, nanoscience, biomaterials, chemistry, physics, engineering, and related interdisciplinary fields.

Topics of interest include, but are not limited to:

- Nanomaterial synthesis, functionalization, and characterization
- Bio-Derived Nanomaterials
- Nanomaterials for drug delivery
- Nanocatalysis
- Optical and electronic nanomaterials
- Nanosensors and nanoscale sensing systems
- Biopolymer-Based Nanocomposites
- Biological Hierarchical Structural Materials
